“Lex Familia India is an endeavor to create a family of lawyers. Our vision is to create an alliance of senior practitioners and young legal minds. We strongly believe in “learning together and growing together”.

With this idea of togetherness, we have associated with senior practitioners to share their learnings and experience with young legal minds. At LFI, we educate young lawyers in a fashion that is completely distinctive. Our primary aim is to equip budding lawyers with the necessary legal training equivalent to what is expected of an associate working in a law firm, all provided from a practical standpoint with practitioner’s insight. Breaking the stigma of approachability and the barrier between seniors and juniors, our goal is to fill the significant gap that exists between traditional learning outcome of students in college and the expectations of a law firm. Having trained quite a few associates ourselves, we understand the gap and with our sessions and mentorship programmed, we tend to address the need of students and prepare them to be a law firm/corporate organization ready.

Importance of workshop in Capital Markets & Securities Law

In the recent past, India's capital markets have gained significant recognition on the global stage, attracting Foreign Institutional Investors (FIIs) and portfolio investments. This has resulted in increase in the number of initial public offerings by Indian companies including new age tech companies; and host of other offerings and fund-raising activities.

Law firms and teams have been hiring aggressively and there has been a major demand of well-trained young lawyers with the increased amount of work in the field of capital markets. It is expected that market will continue to grow and there will be more products which will be introduced by the regulator resulting in constant demand and opportunities for capital markets lawyers.

LFI's 'Capital Markets' workshop has been designed in such a manner that it will not only benefit a student in understanding theoretical concepts relating to capital markets and securities laws but also will give a detailed insight on practice and process of transactions involving capital markets. With this workshop and due to consistent association with the senior practitioners in the market for a long duration, a student will be 'Associate' ready even before they graduate.

Even during the workshop, meritorious and dedicated students may get an opportunity through our platform to secure internships in Tier I and Tier II Law firms.

Key highlights of the workshop

We share “experience”

The practitioners associated with us not only offer practical insights into their areas of laws but also share their experience of transactions and work in law firms which helps student in having an indicative idea about a firm’s environment.

Workshop and Internship go hand in hand

The practical training and clarity provided during workshops assists students to work more effectively during their internships.

Law firm ready

Almost all of our students who have consistently attended our workshops are well equipped to contribute and function well in a law firm.

Personal assessment and guidance

In this world and age wherein education and securing a placement is quite stressful, the senior practitioners at LFI engage in personal assessment sessions with students to understand the issues at depth to provide solution oriented assistance. Such sessions and personal guidance on time-to-time basis has really helped our students to express themselves and unlock their potential to the highest level.

Personality and soft skills development

Sometime acquiring 'hard' skills (such as knowledge and application) is not so hard; and developing 'soft' skills (such as communication, attitude, etc.) is a major task for many. Our 'interactive' sessions and multiple tasks allotted during LFI journey has enabled students to showcase confidence in communication and articulation of thoughts, amongst others.

Who can enroll?

- 5year integrated Law Students/3year Law Students/LLM Students
- CS aspirant, management students

ASSOCIATE, S&R ASSOCIATES

"In legal profession, one rarely finds mentors who work in order to teach and train freshers. Their efforts were not limited to teach me the academic part of the practice area. Besides extremely informative and interactive sessions, it is the efforts of Mr. Kedia that he invest in each and every student which is applaudable....."

"My journey at LFI started 2 years ago and I have only grown as a person and a professional ever since. Enrolling for the courses offered by LFI is the best decision I have taken professionally. Enrolling for the Master Workshop is one such example....."

"At LFI, I was able to learn each and everything from very basic to advance level including incorporation of a company, fundraising stages in a company, the process of how a company gets its shares listed on the stock exchange, mergers and acquisitions, amongst other things which is actually the real work one would do when they enter into the corporate field....."

"I am delighted to share that I recently secured a pre-placement offer with Trilegal's Capital Markets team. I enrolled in @lex familia India's Master Workshop with the goal of enhancing my practical knowledge, and I'm happy to say that I achieved that and so much more over the course of an year....."
